

SAFETY POLICY

Powertech Labs will conduct its operations in a responsible manner that eliminates or minimizes risks and hazards that impact the health and safety of employees, contractors, customers, and the public.

Powertech is committed to meeting or exceeding the applicable federal, provincial, municipal, and BC Hydro requirements. We will work to continually improve our Health and Safety Management System to enhance our safety performance. At the core of our safety approach is the involvement, empowerment, and accountability of each employee to ensure a safe and healthy work environment for themselves, their colleagues, and their customers.

All staff are responsible for their own and their team's safety. No job is so important or service so urgent that we cannot take the time to perform our work safely.
